

# Web & Software Developer-SLO Assessment, Spring 2013 Results

***Published: 5/14/2013***

## Survey Overview

### Description

Web & Software Developer, Spring 2013

### Instructions Provided To Respondents

There are four sections in this survey.

- The first section contains two questions about your overall experience in the program. Use this section to identify things you liked, things you would change, and to communicate any other comments about your overall experience in the program. If you have feedback about the instruction or anything else related to the overall program, please address that in one of these questions.
- The second section addresses the college core abilities. The core abilities are overall skills that all graduates should acquire during their experience at Western. Focus on yourself in this section.
- The third section addresses the specific outcomes for your program. Please focus on yourself in this section.
- The conclusion provides a comment section for any additional information you would like to share about your experience with your program and Western Technical College.

Thank you for completing this survey.

## Survey Results

The following is a tabular depiction of the responses to each survey question. Additional comments provided by respondents, if any, are included after each table.

### Section - General Overview of Program

#### Instructions Provided To Respondents

We appreciate your feedback, comments and suggestions. The information you provide will strengthen our program. Thank you.

#### 1. What did you like about this program?

Most of the classes were small so that you could get to know all of the classmates. Also, many of the teachers are helpful and friendly. (000000600 Anonymous)

#### 2. What would you change about this program?

The change is already happening with the move to trimesters, since having to take 16-18 credits each semester can be difficult for some people to deal with. (000000600 Anonymous)
