Q3 - What did you like about this program?

I liked that all my classes related to each other and I could use things learned in one class right away in another. It helped me 'connect the dots' in terms of material.

I liked that it was hands on and related to the real working environment. I liked how we got to work with employers from the community and got to apply the skills learned into the real world.

Q4 - What would you change about this program?

I wouldn't change anything about the program. I thought each class was relevant and helped me develop my HR skills.

N/A

Q31 - CONCLUSION Please use this space to share any other feedback, comments, or suggestions about your experience at Western Technical College.

Overall, my experience was terrific at Western. I learned a great deal that I can apply right away in the business setting. All instructors- core and general- were very knowledgeable and helpful.

Compared to other colleges I have attended, Western has a more friendly atmosphere. This happens from the moment you walk into the welcome center going all the way to my instructors. The people in the welcome center are very helpful and willing to help with any question you may have. The instructors are accommodating with life outside of class which is very helpful. If I had any questions on assignments my instructors were more than willing to help.
