

### Q3 - What did you like about this program?

Having every class with the same teacher and same students. It made me feel comfortable in my classes.

I really like that you get out in the field right away and literally apply what you are learning in the classroom out in the field. I like that we have the YWCA to practice doing our stuff in there before using it at our practicums.

Small

I loved the hands on experience! Being able to go out into the field right away first semester to observe and job shadow really gave me the right tools to start out!

I like how hands on everything is. I like that we get into the field right way first semester. I love all the classes!

I really liked this program. I liked how the teachers were very welcoming and were very invested in how well we are doing and tried to help us the best that they could. I loved how we got experience right away instead of waiting towards the end.

I love how the instructors are very welcoming (open to every student), help students in every way that they can not only school work but also personal issue if the student need, and the preparation that the instructors gave to the students.

I enjoyed that I was with the same group of ladies for the entire program! It allowed us to all really get to know each other and create bonds. I also enjoy how quickly we were able to get out into the field and start gaining hands on experience!

### Q4 - What would you change about this program?

Too many big projects due at one time - usually at the end of each semester.

Maybe how many weeks being in the field maybe have the option for students to pick between 7-10 weeks of how long they want to be there.

Practicum should be allowed to be at your place of employment

Nothing that I can think of!

The only thing I would change some of when we would have the classes in which semester.

Over all I do not have anything that I would change about the program.

Nothing that I would really change. Maybe the education portfolio, it just stress me a little.

I cannot think of anything I would change!
