|   |            |           |            |           | Yes           | less or no generals, and more ag classes such as food industry and a whole class on future markets.   |
| Use effective communication skills.                                       | 10 100.00% | 0         | 0          | 0         | Yes           | yes all were met, either between e-mails, phone calls or other students...a.k.a. mom(sarah j). if we ever needed help on something our teachers were there to help. |
|   |            |           |            |           | Yes           | Yes.  |
|   |            |           |            |           | Yes           | I am a professional bullshitter.  |
|   |            |           |            |           | Yes           | Yes, I have also built up my communication skills, talking with people and became more out going.   |
|   |            |           |            |           | Yes           | teachers did great job  |
|   |            |           |            |           | Yes           | I have never had a problem with my communication skills.  |
|   |            |           |            |           | Yes           | Yes   |
|   |            |           |            |           | Yes           | Yes.  |
|   |            |           |            |           | Yes           | yes   |
|   |            |           |            |           | Yes           | Yes it seemed like all the discussions in class always got people talking and i'm sure they will remember most of the things we learned through classes.            |
| Apply mathematical concepts.  | 10 100.00% | 0         | 0          | 0         | Yes           | Yes, but im naturally good at math  |
|   |            |           |            |           | Yes           | yes   |
|   |            |           |            |           | Yes           |   |
|   |            |           |            |           | Yes           | I excel in math.  |
|   |            |           |            |           | Yes           | use math in almost every class  |
|   |            |           |            |           | Yes           | Love math   |
|   |            |           |            |           | Yes           | Yes.  |
|   |            |           |            |           | Yes           | yes in nutrition we used mathematical skills alot.  |
|   |            |           |            |           | Yes           | We had just a few mathematical concepts like in pest control figuring problems. Also in Animal Nutrition 2 figuring rations out.                                    |
|   |            |           |            |           | Yes           | Yes   |
| Transfer social and natural science theories into practical applications. | 8 80.00%   | 2 20.00%  | 0          | 0         | Yes           | yes   |
|   |            |           |            |           | Yes           |   |
|   |            |           |            |           | Yes           | yes, i have come out of the program feeling educated and the internship has allowed me to apply my skills and learn more.   |
|   |            |           |            |           | Yes           | I love to.  |
|   |            |           |            |           | Yes           | yes much of what we learned applied to going back to the family farm and making it better.  |
|   |            |           |            |           | Yes           | Learned how to talk to different classes of people and how to handle talking to them.   |
|   |            |           |            |           | No            | It's hard for me to take the information I learn in the classroom and use it in a working setting   |
| Demonstrate ability to think critically.                                  | 10 100.00% | 0         | 0          | 0         | Yes           | yes, Roger taught us how to think critticy  |
|   |            |           |            |           | Yes           | I'm always thinking. School helped me think deeper  |

| Demonstrate knowledge of agribusiness operations                     | 10 100.00% | 0         | 0          | 0         |               | <p>Yes yes, learned alot about ag</p> <p>Yes yes, and i am still learning the knowelege</p> <p>Yes Work at a COOP!</p> <p>Yes Thank you, Garold Beck</p> <p>Yes yes as long as they are the normal conventional not the niche that some are into</p> <p>Yes my intership showed this best showing diversity of what was to be done</p> <p>Yes I learned all about agribusiness operations in this program. Putting to use what I learned in the program and using it in my current job has been great for me.</p> <p>Yes we learned alot of the accepts incorporated with agribusiness. and there is more out there than you think.</p> <p>Yes I understand many aspects of ag-business. Good Job!</p> <p>Yes yes.</p>                 |
| Demonstrate knowledge of animal nutrition and feedstuffs.            | 9 90.00%   | 1 10.00%  | 0          | 0         |               | <p>Yes yes most definatley</p> <p>Yes yes, tracy did a wonderful job</p> <p>Yes Love animals.</p> <p>Yes Had many classes that taught this well</p> <p>Yes I wish that animal nutrition 2 went more in depth. The majority of the class never had their work done and kept us doing the same thing for weeks. We never moved forward- which inhibited my ability to learn. Its not my fault people can't get their work done.</p> <p>Yes Yes, the class was hard but I learned alot.</p> <p>Yes yes much better than before</p> <p>Yes Compliments of Tracy Harper</p> <p>Yes to a certian poin</p> <p>No I didn't take take nutrition two.</p>  |
| Create an effective plan for nutrient management and crop production | 9 90.00%   | 1 10.00%  | 0          | 0         |               | <p>Yes Learned the basics but now that I am out on the internship I have learned more and how to manage.</p> <p>Yes Not going into crop production</p> <p>Yes In crop science we learn about nutrients of crops but i didn't take nutrient management</p> <p>Yes yes I liked making a snap plus plan</p> <p>Yes Love plants and work at a COOP!</p> <p>Yes Yes, both in the field and at school.</p> <p>Yes Our crop class was shorted, and I feel at a disadvantage because of the substitue instructor. He was very bias- there should have been a better selection process to choose a replacement</p> <p>No Crop production yes but nutrient management no. We should have looked at more commodities in person. Bring some in</p> |
