

## Western Student Learning Results (Program Outcomes) for 2011

Source: Student

Program: EMT - Paramedic

Outcome	Grads Achieving	Not Achieving	Result	
What did you like about this program?	13 (100.00%)	0 (0.00%)		
			Yes	I feel the length of the classes like pharmacol enough time to learn e
			Yes	I liked being able to co situation, this was the p numerous years and wi family, I could not hav program.
			Yes	I liked that it was done so I liked that too!
			Yes	I liked that the program have to take generals!
			Yes	I liked the breakout gro especially the ones who was also helpful to hav it's really like in the fie
			Yes	I liked the overall leng had outside speakers ir
			Yes	It was a quick course tl componates of the para the labs with Don. He l things. I like the live la from start to finish like
			Yes	the instructors were he
			Yes	The program was a gre semesters and summer shorter because that wo feel that I had enough l that there should be m
			Yes	The program was very keeps you involved an
			Yes	The textbook was very the 1 on 1 lab times.
What would you change about this program?	13 (100.00%)	0 (0.00%)		
			Yes	Clinical schedule shou the program was good.
			Yes	I think that there were be completely effective some of the time frame condensed and do not p absorb the cours
			Yes	I would change the len to longer in duration. T could be longer to get i
			Yes	I would like there to be There was a lot of time enough teaching assist
			Yes	I would not have as ma were definitely interest beneficial if this wasn't

				needed as much time as the major things, not
			Yes	I wouldn't change anything simlab a little more
			Yes	Reducing some of the lab as NICU and put them
			Yes	Sometimes things felt like time could be changed hours of coming in for responsible for reviewing readings done.
			Yes	The biggest and most important thing in this class, is there NEE experience. Either certificate documented years of service fall of this program is 1
			Yes	The test. I've never taken argued. Not that I didn't that there were so many to have more TA's come nice get
			Yes	The thing that I would need time before we start
			Yes	This program needs to have a set schedule and we need students would complete time before a test, so don't they would just reschedule
Use effective communication skills.	13 (100.00%)	0 (0.00%)		
			Yes	All the instructors had really worked with the
			Yes	I believe this section was
			Yes	I feel that the expectations
			Yes	I felt that I could use more something anyone can
			Yes	It was a bit frustrating later on a Sunday and on Monday morning. It's not our emails that late in the would be nice to have
			Yes	Late e-mails on Sunday
			Yes	Most of the things are
			Yes	There was some minor Keep sending us email she be expected for the
			Yes	We learned good communication liked more scenario type patients and giving radiation
			Yes	YES! Communication has taught me is to check get information in the class instructors would expect prepared for whatever
			Yes	Yes, this class did enhance
Apply mathematical concepts.	13 (100.00%)	0 (0.00%)		
			Yes	I can calculate drug dosages

			Yes	I feel like we received how to calculate drug c more practice through
			Yes	I really don't like math to work with the instru
			Yes	Some of this felt a little
			Yes	The math that is associ feel that I can effective efield.
			Yes	The medical math port cleaned up a little bit.
			Yes	We spent a little time c really focus on that asp could be spent on this t
			Yes	When teaching med m: concept was taught and talk about "other metho
			Yes	Yes, I have become m doses and drip rates.
Transfer social and natural science theories into practical applications.	13 (100.00%)	0 (0.00%)		
			Yes	Having a background c definitely beneficial to you understand disease the body at a deeper le
			Yes	I think this area was su
			Yes	Really helped you und
			Yes	The anatomy portion o I think that an extende providing a higher leve pathophysiology behin be seeing in hte field.
			Yes	Ummmm yup
Demonstrate ability to think critically.	13 (100.00%)	0 (0.00%)		
			Yes	helped think proactivel
			Yes	I learned a lot on critic open to probable cause
			Yes	I think that this class w that has to think critica
			Yes	I thinkn for the most p: the tools and informati thinker. However, true skil that can be taught is somet
			Yes	More real-life scenario
			Yes	Some students need to nice to keep students in it may be scary! The p: have to ask themselves up at my house t
			Yes	This part of the progr the program. All instru think critically.
			Yes	Through live labs such and doing accessments on things so we would

				change things up as ou
			Yes	We were put in situatic critically. This helped :
			Yes	Would have been nice worksheets for critical
			Yes	Yes, this class has show thinking and being ahe it.
Demonstrate ability to value self and work ethically with others in a diverse population.	13 (100.00%)	0 (0.00%)		
			Yes	I believe I worked wel there was some minor program
			Yes	I think that the lab and provided opportunity to a divers group of peop feel the idea of rescue for people to organize
			Yes	I think this area was cc
			Yes	I think with clinicals we many different people
			Yes	The large amount of ti helped us learn how to different people with d
			Yes	yea
			Yes	yes
Use technology effectively.	13 (100.00%)	0 (0.00%)		
			Yes	I think that things that were very helpful
			Yes	Learned great skills
			Yes	Technology was used a program.
			Yes	Technology was used a time with the sim lab
			Yes	The use of tech is adeq Simlab time would be opportunity to get real allows the student to se performed are benefici
			Yes	We were given many c equipment and monitor the job.
			Yes	We were required to us helpful.
			Yes	Would have been nice options. Also more vid
			Yes	yes
Make decisions that incorporate the importance of sustainability	13 (100.00%)	0 (0.00%)		
			Yes	Not really sure what yc
			Yes	We learned skills that i
			Yes	yes
Perform adavanced patient assessment	12 (92.31%)	1 (7.69%)		
			Yes	I learned a lot in this p assessments and treatr

				did when I started and patient
			Yes	I think that my assessm increased and will per field appropriately.
			Yes	I think that this class d afternoon class was ge
			Yes	It would have been shc assessment in different to practice that. When scenarios, I feel like w with little inst
			Yes	Patient assessment was program. The true valu clinical rotations. The skills needed.
			Yes	Some students are still think wouldn't be the c year of experience as a program.
			Yes	very much so
			Yes	went over patient asses stick in you mind
			Yes	Would like more exper
			Yes	Yes we are very skilled
			Yes	YES! The instructors n time did they get info paramedic assessment! out of ours? Lead by e:
Interpret the nature and seriousness of the patient's condition.	13 (100.00%)	0 (0.00%)		
			Yes	Clinicals were helpful
			Yes	I beleive the program t but real world experier
			Yes	I know now more of th injuries and what to lo talking about common helpful
			Yes	I think the training pro comfort with determin: condition.
			Yes	yup
Understand organ systems and pathophysiology pertaining to these systems.	13 (100.00%)	0 (0.00%)		
			Yes	Again, I have a much t and pathophysiology b class would be benefic
			Yes	Anatomy and physiolo program. It would be b class prior to taking the systems.
			Yes	Guest speakers were g Cardiologist, Neonatol
			Yes	I feel okay about A&P background otherwise that for me.

			Yes	I think everyone should prior to this program.
			Yes	I think that we went ov take more time on this
			Yes	It would be nice to rev before each new class t
			Yes	Previous classes of ana
			Yes	Taking Anatomy and F when taking this progr: subject is good. Again problems discussions v
Provide appropriate treatment procedures according to protocols while in various settings and situations.	12 (92.31%)	1 (7.69%)		
			No	Seeing as protocols we
			Yes	Don did a great job at g us through what type o
			Yes	It was hard to learn all
			Yes	This program was very medicine by relying on not the answer to all si
			Yes	Very good
			Yes	With the help of the in: many different treatme treatments.
Utilize effective communication skills when working with patient's, family, colleagues, and other healthcare professionals.	13 (100.00%)	0 (0.00%)		
			Yes	Again, communication some miscommunicati: well informed. There v the students.
			Yes	Being in charge of sen: "patient" and their fam ask questions to get the
			Yes	Communication skills program.
			Yes	I think that communica looked at in a bit great
			Yes	I think that throughout their commication skill
			Yes	Very Important!!!
			Yes	We learned those skills
			Yes	yup
Operate all equipment safely, effectively and efficiently	12 (92.31%)	1 (7.69%)		
			No	Although we got a "cra there wasn't always thir equipment.
			Yes	Equipment was covere like to see done differe That was not done wel to use.
			Yes	I felt I operated all equ
			Yes	It's hard to be able to o because there are so m there that most of that
			Yes	we had to learn alot of

			Yes	We went through the e monitor I am comforta
			Yes	Would like more hand:
			Yes	yup
Gather, interpret and report information verbally and in writing	13 (100.00%)	0 (0.00%)		
			Yes	Didn't spend to much t reports were helpful to said
			Yes	For the most part, this spend anytime actually reports are done by eve we spent zero days usi
			Yes	More practice on radio
			Yes	we learned how to cor beneficial to the patien
			Yes	yes
Apply legal and ethical principles to professional behaviors.	13 (100.00%)	0 (0.00%)		
			Yes	Legal and ethical prin:
			Yes	This is an area that is o that the medic in the fi ramifications of their a responsibility lies with
			Yes	uh huh!
			Yes	Yes this was explained
Work collaboratively with a diverse range of people	13 (100.00%)	0 (0.00%)		
			Yes	I feel as a CNA and the helped me to better unc beliefs. I work well wi
			Yes	This was stressed throu
			Yes	yup
Make decisions under stress.	13 (100.00%)	0 (0.00%)		
			Yes	I'm still waiting to be c but I feel that I am reac
			Yes	This was also covered EMS experience prior understanding on the s can be to make those d cannot be taught that fi
			Yes	We really didn't have t make dicisions about.
			Yes	yes
Establish a safe environment for patient care.	13 (100.00%)	0 (0.00%)		
			Yes	Covered well.
			Yes	I feel I made all patien respect
			Yes	yes
<b>Aggregate Assessment Of Achievement:</b>	<b>257 (98.85%)</b>	<b>3 (1.15%)</b>
