Program: Instructional Asst - AD

of Responses: 13

Outcome	Yes	No	Unk	NA	Result	Feedback
What did you like about this program?	13 100.00%	0	0	0		
					Yes	It teach me how to prepared for my career. It give me lots of experiences of being a role of a Para. It teach me so many techniques that I will need to know and will hlep me in my future. The instructors is very flexiable and understanding. This program have helped me so much.
					Yes	Great program
					Yes	I thought that the Instructor's were great, and really brought the information across to us in many ways. I also loved how we got so much experience in 2 years.
					Yes	I loved the program, but sadly that it is going to be freeze for a long time. I really wish it was still be here at western with three wonderful instructors, whom showed their passion, learning experience, provide great field training (practicumn1-3), and learning materials/lesson plans. All my three instructors has show me a new path to my journey throughout the years and it is a great loss for this program and them. Not even one instructor says that my scores matters, what matters most the knowledge I gain out from the program and classes. Loved this program so much that I would like to recomanded many educators to take this program for a head-start into the education systems/world.
					Yes	I like that our program students get along and cooperate with each othere very well. Our teachers provide us with the information we will need in real life situations in the classroom. Our teachers also make the classes fun!
					Yes	First of all, I love my caring teachers that will always help and do their best to be flexible. After that, I love the practicum experience that I've had to learn and going somewhere new is always different and that will build on my knowledge and skills.
					Yes	I found this program exciting and vibrant and I am going to walk away with knowledge that I can use in a school setting and st home! All the instructors were very helpful and had great attitudes which helped me learn better!
					Yes	I really enjoyed being able to work with the students one on one. Having the field experience is extremely useful. Shelly Bauer and Patty Fellows are amazing instructors and none of this would have been possible without them!
					Yes	the field experiences
					Yes	I really enjoyed this program very much. There were a ton of opportunities for me to experience what my field of choice was going to be like. I was able to express myself in many different manners that benifited my learning.
					Yes	I like how this program was offered online and in person. I would not have been able to sucessfully complete the program without this option.

Outcome	Yes	No	Unk	NA	Result	Feedback
What would you change about this program?	12 92.31%	1 7.69%	0	0		
	Yes					Nothing, I loved everything about the program!
	Yes					I really wouldn't change a thing about this program. Every class I had has helped me on so many levels. I feel so prepared to go begin my career in a school setting.
	Yes					The only thing that I would change would be to make the Supporting Students with Disabilities class a 16 week class. I feel that we learned a lot in the 8 weeks, but maybe we could have gone more indepth with some of the topics if we would have had more time.
	Yes					Supporting students with disabilities needs to be a 16 week class.
	Yes					I like having the 3 practicums, so I prefer to have it stay this way, but I know that next year it will only be 2 practicums. I like to take advantage of working at different schools. 2 practicum is not enough.
	Yes					Nothing! I enjoyed it a lot. I hope it reaches more people in the future.
	Yes					I don't think that this program shouldn't be change. I like the way it is.
	Yes					nothing
	Yes					I would change the portofolio section of the course. I would have the students start their portofolio at the beginning of the program instead of waiting to complete it at the end of the program. Otherwise the program was awesome!
	No					There is nothing to change in this program because I had gain all the new information. This program meet what it is to be expected the outcome, what needs to be understands, and field training.
Use effective communication skills.	13 100.00%	0	0	0		
	Yes					There was always very open communication between the students and staff.
	Yes					Using effective communication is important in any work environment. In education, we need to be able to communicate effectively with teachers, other Instructional Assistants, students, principles, parents, and so many more to see that the students get the best education possible.
	Yes					It help me so much to communication with my cooperating teachers, my instructors, parents, classmates and students that I will be working with.
	Yes					I learned how to talk to cooperating teachers and students, along with my own professors
	Yes					Yes, all my teachers have effective communication skills.
	Yes					As a class we communicate through e-mail or when we meet for face to face classes
	Yes					Instructors were able to email directly back to students for any concerns and questions. Plus, phone calls too!
	Yes					I have learned that without effective communication how are any of us able to work in any setting.
	Yes					A lot
Apply mathematical concepts.	13 100.00%	0	0	0		
	Yes					I used in my Intro to math and Techniques for math.
	Yes					I learned how to do this in introduction to college math

Outcome	Yes	No	Unk	NA	Result	Feedback
					Yes	Mathematics are very logical ways of thinking, but I have lists of children's books and activities for different age levels to meet the learning style of every student. I have created and demonstrated a variety of different math teaching techniques, and have also taken the class "Techniques for Math".
					Yes	I like the mathematical concepts because I learned and improved a lot from it! Plus, I get new techniques of math too!
					Yes	I have learned that it is important in everyday life for everyone to be able to do even basic concepts. Math is all around and it was one of my favorite subjects!
					Yes	yes i learned this very well thank you
Transfer social and natural science theories into practical applications.	13	100.00%	0	0	0	
					Yes	We all need science and it is like math it is in our everyday lives! I know that I can take what I learned and apply it to the real school setting. If you ask me I would rather not do it, it is my least favorite subject!
					Yes	We talked about this.
					Yes	I am currently taking the class, "Techniques for Science", the instructor is amazing. I have learned a lot about questioning, science safety, implementing lesson plans, and so much more. I feel I have a much better understanding.
					Yes	Tech. for teaching science taught me this
					Yes	I had a great learning experience and was able to be creative.
Demonstrate ability to think critically.	13	100.00%	0	0	0	
					Yes	In education, a person has to think on their feet and be ready to expect what ever may come that day. During an IEP meeting we have to be able to think critically and logically to help the student as best we can.
					Yes	There was a lot of logical assessments and was able to have a big and small group discussions. Also, for any concerns for questions too!
					Yes	Yes, especially in the field experience when I'm by myself and have to make decisions and apply my skills.
					Yes	yes i learned this very well thank you
					Yes	I believe throughout my whole 2 years I have had to do this numerous times on numerous assignments.
Demonstrate ability to value self and work ethically with others in a diverse population.	13	100.00%	0	0	0	
					Yes	different ethnics in each classroom
					Yes	We were always given an opportunity to work in a diverse population. I was very thankful for this!
					Yes	This one has been done and I understand how important it is to stay ethical when you have such a diverse country now.
					Yes	We learned about teamwork a lot our first year and it definitely helped when I go out in the field.
					Yes	I think we covered this very well. In "Teamwork in School Settings" and "Race, Ethnicity, and Diversity" we covered the importance of this outcome.

Outcome	Yes	No	Unk	NA	Result	Feedback
					Yes	I had great working skills with others who are diverse and we had a team of working together.
Use technology effectively.	13 100.00%	0	0	0	Yes	I am now able to navigate through a computer a little more clearly and use some of the equipment in a classroom.
					Yes	two classes based on technology
					Yes	All the technology was useful and meaningful within the classroom.
					Yes	I will demonstrate my understanding how to operate any technologies in the school settings such as overhead projector, vcr, copy machine, document camera and such more...
					Yes	tech. and media resources and Mac Os taught me this
					Yes	Yes, my technology class helped me a lot and now I am feel very comfortable using the technologies that are needed in schools.
					Yes	I have taken "Mac OS" and "Technology/Media Resources". In these classes we learned about a wide variety of many pieces of technology and how to use them properly.
Make decisions that incorporate the importance of sustainability	13 100.00%	0	0	0	Yes	We learned the importance of "scaffolding" a student, and how we as an educator need to be able to step into a situation with confidence and stand on our own.
					Yes	Yes, paraeducators are definitely needed and this program should not be closed!
					Yes	I was able to make decisions that are meaningful and had great suggestions from instructors and classmates!
Implement instructional strategies to support all student learning.	13 100.00%	0	0	0	Yes	In many of my classes we discussed how the three ways of learning are very important, and had practice implementing some lessons in this way.
					Yes	Yes, we do this every day in our field experience and we see it through our teachers as well.
					Yes	All of my intrustors did meeet their requirements to support all of the students learning. We all feel like were a family and had a great time!
					Yes	Using different learning techniques, Multiple Intell. and etc...
					Yes	the one major thing I learned about all student learning is the multiple intelligences
Assist all students in maintaining appropriate behaviors in individual and group settings.	13 100.00%	0	0	0	Yes	learning what behaviors are what and being able to use multiple teaching strategies to better assist the students
					Yes	We did lots of useful activities that I use in my job today.
					Yes	We put what we learned to the test in the field.
					Yes	In "Guiding and Managing Behaviors" along with in the field practice I have learned a wide variety of strategies to put into practice while working with both individual and groups of students.

Outcome	Yes	No	Unk	NA	Result	Feedback
					Yes	We all respect and work as a team together. We are always be responsible to our jobs/works and within the group.
Communicate effectively with students and school staff.	13 100.00%	0	0	0	Yes	Yes with emails and phone calls!
					Yes	I use it offer when I am in my practicum...
					Yes	I've had very effective communication with all my cooperating teachers and program teachers.
					Yes	In "Teamwork" we had to demonstrate communication in some activities to accomplish the task given.
					Yes	this is highly important for the success of all students
Carry out school and classroom policies, procedures, and tasks.	13 100.00%	0	0	0	Yes	We are aware of the different procedures and policies in the schools that we work at.
					Yes	following all policies is highly important and realizing what your role is, is highly important to achieve success for all
					Yes	We learned the importance of this in a wide variety of the classes we took.
					Yes	Polcies were followed by directions and was cleared!
Utilize a variety of instructional media and technology.	13 100.00%	0	0	0	Yes	Very useful!
					Yes	Book on tape, I helped the students on the computer when they needed help with problems that were on the computer and in Technology and Media I have use the overhead projector, VCR, document camera and know the difference of Mac and PC Platforms
					Yes	We have practiced this over and over again in a few of our classes.
					Yes	We get to do many things throughtout the day in the field that used technology.
Provide for health and safety needs of students.	13 100.00%	0	0	0	Yes	realizing what your role is and the teachers role and understand the safety of equipment and other things will help the school run better
					Yes	We have learned how to provide health and safety for students in "Classroom Management", "Child and Adolescent Development" and "Support Students with Disabilities."
					Yes	Students with any health concerns or issues, we were able to give advises to each other to have a healthier and saftey needs for students!
					Yes	I reported a behavial incident to the teacher, I assisted the kids during a fire drill and I reminded the kids not to run in the hallway....
Assume responsibility for ethical, moral, and legal practices.	13 100.00%	0	0	0	Yes	Everyone was responsible for any that will cost out of the programs and instructors.

Outcome	Yes	No	Unk	NA	Result	Feedback
					Yes	We are aware of IDEA and Zero Tolerance.
					Yes	This is also something we have gone over in a variety of our classes.
Fulfill role responsibilities of the position in relation to school staff and students.	13 100.00%	0	0	0		
					Yes	everyone understand the roles of responsibilities from each other!
					Yes	my responsibilities will be being able to fulfil what the teacher expects me to do
					Yes	We help with anything and everything in the school.
					Yes	Understanding our roles in the schools are very important, and this was emphasized in every core class.
Aggregate Assessment of Achievement	220 99.55%	1 0.45%	0	0
