

Air Cond, Heating, Refrig Technician SLO Assessment, Spring 2013 Results

Published: 5/13/2013

Survey Overview

Description

Air Cond, Heating, Refrig Technician, Spring 2013

Instructions Provided To Respondents

There are four sections in this survey.

- The first section contains two questions about your overall experience in the program. Use this section to identify things you liked, things you would change, and to communicate any other comments about your overall experience in the program. If you have feedback about the instruction or anything else related to the overall program, please address that in one of these questions.
- The second section addresses the college core abilities. The core abilities are overall skills that all graduates should acquire during their experience at Western. Focus on yourself in this section.
- The third section addresses the specific outcomes for your program. Please focus on yourself in this section.
- The conclusion provides a comment section for any additional information you would like to share about your experience with your program and Western Technical College.

Thank you for completing this survey.

Respondent Metrics

Respondents: 8

Survey Results

The following is a tabular depiction of the responses to each survey question. Additional comments provided by respondents, if any, are included after each table.

Section - General Overview of Program

Instructions Provided To Respondents

We appreciate your feedback, comments and suggestions. The information you provide will strengthen our program. Thank you.

1. What did you like about this program?

I liked how hands on everything was, that's how i and others usually learn best. I also liked the helpful and timely feedback from the instructors. They really challenged me to do my best (000000556 Anonymous)

I liked it. I thought it did good job of introducing students to many different aspects of the industry and thereby providing students with the experiences to compete for jobs. (000000346 Anonymous)

It is taught very well and they make sure we understand what we are doing. (000000348 Anonymous)

John Flanagan (000000343 Anonymous)

small classes. good instructors (000000344 Anonymous)

The hands on experience. (000000347 Anonymous)

the knowledge i learned (000000345 Anonymous)

The variety of systems and instructors. (000000429 Anonymous)

2. What would you change about this program?

I think i would incorporate more into the 2nd year of the two year program, there was a lot of material where i knew the basics but didnt completely understand it (000000556 Anonymous)

Instead of a job shadow class, I would prefer to pay the extra money for something they used to do, which was an 8 week apprenticeship with one company (000000346 Anonymous)

It would be nice to be able to do more things in lab but we would need more lab time. (000000348 Anonymous)

more lab work time in second year of program (000000344 Anonymous)

More time. (000000429 Anonymous)

nothing (000000345 Anonymous)

Well set up program. (000000347 Anonymous)
