

Medical Laboratory Technician-SLO Assessment, Spring 2013 Results

Published: 5/15/2013

Survey Overview

Description

Medical Laboratory Technician, SLO Assessment, Spring 2013

Instructions Provided To Respondents

There are four sections in this survey.

- The first section contains two questions about your overall experience in the program. Use this section to identify things you liked, things you would change, and to communicate any other comments about your overall experience in the program. If you have feedback about the instruction or anything else related to the overall program, please address that in one of these questions.
- The second section addresses the college core abilities. The core abilities are overall skills that all graduates should acquire during their experience at Western. Focus on yourself in this section.
- The third section addresses the specific outcomes for your program. Please focus on yourself in this section.
- The conclusion provides a comment section for any additional information you would like to share about your experience with your program and Western Technical College.

Thank you for completing this survey.

Respondent Metrics

Respondents: 5
First Response: 4/29/2013 07:46 AM
Last Response: 5/8/2013 11:41 PM

Survey Results

The following is a tabular depiction of the responses to each survey question. Additional comments provided by respondents, if any, are included after each table.

Section - General Overview of Program

Instructions Provided To Respondents

We appreciate your feedback, comments and suggestions. The information you provide will strengthen our program. Thank you.

1. What did you like about this program?

Course content (0000000496 Anonymous)

I liked the hands on part- the lab the best. I also liked that we got to experience different clinical sites. When I talked to the MT students, they seemed disappointed that they only got to experience one clinical site, while we got to experience 4 in our program. (0000000567 Anonymous)

I liked the scientific and investigative aspects of this program (0000000367 Anonymous)

I thought they did an excellent job preparing us for work as soon as we graduate. After completion of the program. I feel I can work competently in the lab. (0000000568 Anonymous)

The course transitioned smoothly between each other and clinicals. (0000000708 Anonymous)

2. What would you change about this program?

Better interview preparation (0000000496 Anonymous)

I think the amount of clinical hours is in excess. I can't even being to understand how those students who have kids have time to support their families while working 40 hours/week for free. It must be so hard. (0000000567 Anonymous)

I would have fewer assignments due during the full time clinical period. I think students would benefit from being able to concentrate on the department they are in at clinical rather than working on assignments. (0000000568 Anonymous)

I would make the course a little longer. There is a lot of content that needs to be absorbed to be a good MLT, and there is just not enough time for some of the classes. (0000000367 Anonymous)

Som times a little more organization in each class on the power points would have been nice. Sometimes they seem to bounce from topic to topic and back again, so you did not always know what you were looking at. (0000000708 Anonymous)

Section - Western Technical College Core Abilities

Instructions Provided To Respondents

This section addresses the college core abilities. The core abilities are overall skills that all graduates should acquire during their experience at Western. Focus on yourself in this segment. As a result of this program:

3. I have learned effective communication skills.

100% 5 Yes

4. Comments on effective communication skills.***5. I am able to apply mathematical concepts.***

100% 5 Yes

6. Comments on application of mathematical concepts.

Math that was taught was all relevant and useful in the lab (000000568 Anonymous)

7. I learned how to transfer social and natural science theories into practical applications.

100% 5 Yes

8. Comments on transferring social and natural science theories into practical applications.***9. I learned critical thinking skills.***

100% 5 Yes

10. Comments on critical thinking skills.***11. I have learned to use technology effectively.***

100% 5 Yes

12. Comments on effective use of technology.***13. I have learned to value myself and work ethically with others in a diverse population.***

100% 5 Yes

14. Comments on valuing self and working ethically in a diverse population.***15. I am able to make decisions that incorporate the importance of sustainability.***

100% 5 Yes

16. Comments on incorporating the importance of sustainability.

Section - Specific Program Outcomes**Instructions Provided To Respondents**

This section addresses the specific outcomes for your program. Please focus on yourself in this section. As a result of this program, I learned to:

17. Practice laboratory safety and regulatory compliance.

100% 5 Yes

18. Comments about learning this program outcome.**19. Collect and process biological specimens for analysis.**

100% 5 Yes

20. Comments about learning this program outcome.**21. Monitor and evaluate quality control in the laboratory.**

100% 5 Yes

22. Comments about learning this program outcome.

It would be a little nice if qc and calibration were explained better. (0000000708 Anonymous)

23. Apply modern clinical methodologies including problem solving and troubleshooting according to predetermined criteria.

100% 5 Yes

24. Comments about learning this program outcome.**25. Apply laboratory results to diagnosis of clinical conditions and/or diseases.**

100% 5 Yes

26. Comments about learning this program outcome.**27. Perform information processing in the clinical laboratory.**

100% 5 Yes

28. Comments about learning this outcome.**29. Model professional behaviors, ethics, and appearance.**

100% 5 Yes

30. Comments about learning this outcome.

Section - Conclusion**Instructions Provided To Respondents**

Please use this space to share any other feedback, comments, or suggestions about your experience at Western Technical College.

31. Comments

Had a valuable experience. Would recommend it to others. (000000568 Anonymous)

I think the added summer semester will help make things a little less "rushed" (000000367 Anonymous)

Valuable life experience (000000496 Anonymous)
