

# Welding Spring 2016 Student SLO Report

Spring 2016 – Welding

May 2nd 2016, 10:31 am CDT

## Q3 - What did you like about this program?

Very well put together and great hand's on experience.

Well I like the story's of what the teachers went thru in the welding field to make it to this point.

## Q4 - What would you change about this program?

I would consider finding a better instructor for tig welding and smaw 3. .... really avoids giving us demo's and is not helpful. With welding you can't just tell someone how to do it you have to shw them at least for beginners.

I would change nothing really , I liked everything and looked for word to class.
