Spring 2016 - Wood Tech

Q3 - What did you like about this program?

I like the whole program. The instructors especially, Xxxxx and Xxxx are very nice people and very knowledgeable.

the level of learning is above par with higher education and learning for quality. both Xxxx and Xxxxx made the program fun and a learning experience so i was able to walk into the program with little or no knowledge of the subject and get a great and vast amount of trade skills for my future.

It was all hands on and our instructors were very knowledgeable in their fields. They took time to show that they really cared about what we were learning.

i liked learning siding and working with Xxxx and the other students

Q4 - What would you change about this program?

I would limit the amount of hours a student is able to miss for class. People who continually miss class and are still able to get their degree isn't 100% fair.

there is not much i would change about the program Xxxxx and Xxxx are above par instructors and deserve recognition for it in some way shape or form.

Q41 - CONCLUSION Please use this space to share any other feedback, comments, or suggestions about your experience at Western Technical College.

thank you for the time and the education. it was fun and a worth while experience. keep up the good work.

Personally I enjoyed every aspect of the program. I learned a lot about myself as a person and even more about building. My one shot that I will take is that we have a couple students in our class that do not even come close to putting in the amount of work that some of us do and they are still getting the same degree that someone who busted his tail is going to get. I think students should be held accountable for them not showing up specifically. I don't think someone who shows half the ambition of a good worker should be able to get the same piece of paper as someone who is punctual and puts for effort.

XXXXXX is a good person and very respectful of the students. ... is very knowlegable and thourough in their teachings
