

Enable Compatibility View for Internet Explorer

Compatibility mode can be used if in the event of trouble using some of Western's online services on other computers off campus (for example: webmail and PowerCampus)

Option 1:

Click the *Compatibility View* button on the web address bar. It will appear gray when it is not enabled and turn blue after it has been enabled.

The Compatibility View button

Option 2:

Click the Tools button (gear shaped icon) in the upper right corner.

Choose *Compatibility View Settings* from the list.

In the window that opens, enter *westerntc.edu* in the *Add this website* section and click *Add*
