

Architectural Technology Fall 2014 Student SLO Report

1. What did you like about this program?

Text Response

I liked the overall structure of the program.

I liked the material that we covered in the CAD classes specifically. Learning REVIT will help me in the workplace for years to come.

This program taught me real life situations and gave me the experience I need to start out in this field

I really enjoyed this program, mostly learning all the new programs.

I liked the trips and "hands-on" activities we did as a class.

Loren Anderson

2. What would you change about this program?

Text Response

add more drafting courses

This is not specifically a program change, but having computers available in all classrooms is critical. We had a structural analysis class with no computers. It would have made the class much more useful had computers been in there.

Maybe when each class is taught.

One thing I would change would be Tech math.

Nothing

Add CAD back into the program

3. As a result of this program:

Question	Strongly Disagree	Disagree	Neither Agree nor Disagree	Agree	Strongly Agree	Total Responses
I have learned effective communication skills.	0	0	2	0	4	6

4. Provide any comments you have on effective communication skills you learned.

Text Response

When I first started, I could hardly speak in front of a group. Now, I do it with little problems.

5. As a result of this program:

Question	Strongly Disagree	Disagree	Neither Agree nor Disagree	Agree	Strongly Agree	Total Responses
I am able to apply mathematical concepts.	0	0	0	2	3	5

6. Provide any comments you have on mathematical concepts you learned.

Text Response

Not because of the math I learned at Western though. Much of the math taught here is not useful in our program at all. Geometry and Trigonometry and how they apply to Architecture should be the focus. An Architectural Math class should be offered with an emphasis on structure and design concepts. Call the class Applied Architectural Math.

11. As a result of this program:

Question	Strongly Disagree	Disagree	Neither Agree nor Disagree	Agree	Strongly Agree	Total Responses
I have learned to use technology effectively.	0	0	0	2	4	6

12. Provide any comments you have on what you learned about using technology effectively.

Text Response

It is core focus of the program. Loren Anderson and Pete Zirbel do a great job.

15. As a result of this program:

Question	Strongly Disagree	Disagree	Neither Agree nor Disagree	Agree	Strongly Agree	Total Responses
I am able to make decisions that incorporate the importance of sustainability.	0	0	0	2	4	6

16. Provide any comments you have on what you learned about incorporating the importance of sustainability in decisions you make.

Text Response

I took extra classes for this through the Building Systems program.

31. CONCLUSION - Please use this space to share any other feedback, comments, or suggestions about your experience at Western Technical College.

Text Response

An overall great experience. I learned a great deal about Architecture, construction, and structures in general.

I thought the teachers were excellent and experienced in teaching
