

# EMT Spring 2014 Student SLO Report

## 1. What did you like about this program?

### Text Response

Good flow, good teacher, got the skills, and expectations were high, ensuring I have the confidence in most of my fellow students to successfully treat me in my time of need, should it come

I had to work for everything, it wasn't a "just show up and you can pass"

The real world experiences that were intertwined into the course.

I liked that this program was so hands on and the teacher was smart and knew the topic.

It was fun doing the hands on and Shari did a great job teaching it.

Everything.....!!!

I liked the hands on learning and also working with other EMS providers and learning from them

It was well planned out and very well taught.

everything

hands on

Hands on

Shari has a lot of enthusiasm and care for the class and students.

The hands on experience and learning Life Saving skills to benefit the public. I had an outstanding instructor. Very pleased with this course.

fast

## 2. What would you change about this program?

### Text Response

I would split up the weekend classes to occur once per month, not 4 times in the last 6 weeks of class!

The fact that there was no break during the semester. It got long.

none

Saturdays scattered throughout the program and not all in a row

nothing

I would change the way the information is presented and reviewed, I would do the lecture one day, and have the review due the other day

Some exam questions were misleading.

nothing

Grading

Grading

New equipment would benefit the learning experience.

Nothing.

need more equipment

### 31. CONCLUSION - Please use this space to share any other feedback, comments, or suggestions about your experience at Western Technical College.

#### Text Response

Please, spread the required weekend classes apart more!

Please offer two EMT classes per semester

Shari was a wonderful instructor! She brought many real world experiences to the classroom. She was by far the best instructor I have had at WTC.

It was a great learning experience!

It was great, I like the location and hours..!!!

The EMT class was exceptional. The only thing I may change for sure is the class needs better equipment and better funding. I am also unsure why WTC has an ambulance but does not use it for practice.

its nice

It was a great experience and a lot of fun. Great course that is very helpful and educational. Amazing instructor!
