

Electronic & Computer Engineering Technology Spring 2014 Student SLO Report

1. What did you like about this program?

Text Response

The hands on learning and programming classes.
I liked how the instructors were very knowledgeable and helpful.
Taught by people with experience in the working world.

2. What would you change about this program?

Text Response

I would spend more time with the CET's on circuits. There is a portion of the year were CET and EET merge apart then come back together. The EET's excels in communications systems but the CET's struggle because they haven't seen the material in almost a year.
I would include an internship as part of the program to give students hands on experience in the working world. Most job descriptions ask for experience.

3. As a result of this program:

Question	Strongly Disagree	Disagree	Neither Agree nor Disagree	Agree	Strongly Agree	Total Responses
I have learned effective communication skills.	0	0	0	2	1	3

4. Provide any comments you have on effective communication skills you learned.

Text Response

Speaking to groups of people, speaking with confidence
My communications skills were developed before attending WTC.

use appropriate test equipment and troubleshooting techniques to repair or locate defective circuits or components in electrical/electronic systems.	0	0	0	1	2	3

26. Provide any comments you have about learning this program outcome.

Text Response

Trouble shooting is somewhat shortened in the CET program and I feel we should spend some more time getting to understand how to better troubleshoot.
