

Medical Laboratory Technician Spring 2014 Student SLO Report

1. What did you like about this program?

Text Response

I very much enjoyed the small class sizes, there was more opportunity for one on one work with the teachers.

I really liked that the program got right into hands on learning. Also liked how the clinicals were spread out through all semesters.

Relevant classes, hands on learning

I liked that it gave me the chance to experience large and small hospitals. I helped me in the decision of where I would like to work.

2. What would you change about this program?

Text Response

I would include more career prep, like having us work more on our resumes, and cover letters. Making it a grade to go and talk to the career services they are a great resource and so many students dont know or wont take the time to go there.

This program needs to let new students know that it is impossible to work a 1st shift job. Also it was kind of misleading when the program changed from 16 weeks at large hospital to under 12 weeks forcing you to have to drive further distances for a longer period of time. Felt at times I was treated like I was back in high school...nothing against the teachers it just is that they are trying to help you succeed and in doing so make you feel that way (I guess since I had a degree already I didn't feel the need to do special projects to help learn etc.)

It was very fast paced and a little hard to keep up

I know it has to be done but driving 40 minutes to an hour to clinicals is not the most ideal thing.

5. As a result of this program:

Question	Strongly Disagree	Disagree	Neither Agree nor Disagree	Agree	Strongly Agree	Total Responses
I am able to apply mathematical concepts.	1	0	0	3	0	4

6. Provide any comments you have on mathematical concepts you learned.

Text Response

would have liked a longer math class than half a semester

I had a really great background, but fellow classmates who did not seemed to struggle in basic math concepts.

31. CONCLUSION - Please use this space to share any other feedback, comments, or suggestions about your experience at Western Technical College.

Text Response

Great program, would and have recommended it to multiple people. Sad to leave, great time. Overall experience in the past two years is really great. I feel that this college better prepares students for the real world compared to UW-La Crosse and goes the extra mile to help students acutally get jobs.
