

Occupational Therapy Assistant Spring 2014 Student SLO Report

1. What did you like about this program?

Text Response

I like that fact that we had a lot of opportunities for hands on experiences!
I enjoyed the pace of the program and the wide variety of knowledge I learned. I also enjoyed the experiences from community practices and the guests we had.
I loved the learning opportunities and the vast amount of knowledge that was learned and taught.
I enjoyed the progression of the academics and how each class was built off of the previous course.
nothing
I liked that it was a 2 year program that fit to my schedule. It was nice having a combination of face-to-face classes and online classes.
I liked that there was a wide variety of subjects that we learned about and used them in every class. By knowing all of this information it just helps me grow in the caring person that I am. The patience and understanding of the instructors.
I enjoyed how hands on the courses were.
I really liked the hands on aspect of this program! The teachers were great and very supportive!
The instructors were very passionate and willing to go above and beyond.

2. What would you change about this program?

Text Response

I wouldn't change anything about the program
More interaction with 1st and 2nd year students and possibly with UW-L OTR program.
Nothing.
I would focus a lot more on treatment planning and ADL sessions. These are HUGE components of fieldwork and practice so I think a little more time should be given to these topics.
the instructors
Books were an expensive part of my experience and I feel that there were some books that weren't used effectively.
Getting help from the teachers when I ask for it throughout the program. At all times they weren't able to sit down and help me when I needed.
Returning work in a timely manner

3. As a result of this program:

Question	Strongly Disagree	Disagree	Neither Agree nor Disagree	Agree	Strongly Agree	Total Responses
I have learned effective communication skills.	0	0	0	6	7	13

4. Provide any comments you have on effective communication skills you learned.

Text Response

Learning therapeutic use of self is significant for verbal and nonverbal use. Community projects helped use our learned communication skills. Fieldwork was a way we could demonstrate and grow our written documentation skills. Communication has always been a hard part in my life and I have come a long way. This program has helped me grow in every aspect of communication and am so happy for it.

9. As a result of this program:

Question	Strongly Disagree	Disagree	Neither Agree nor Disagree	Agree	Strongly Agree	Total Responses
I learned critical thinking skills.	0	0	1	5	7	13

10. Provide any comments you have on critical thinking skills you learned.

Text Response

I struggled with this through many semesters, however my instructors continued to give me constructive feedback and the more i practiced the more proficient i became. I now feel competent with my critical thinking skills.

Taking a example diagnosis and having to plan of a treatment "on the spot" helped facilitate our critical thinking skills as if we were out on the job.

What we did helped but since we completed mostly when we were at FW it was hard to get help when needed and would have been nice to complete more assignments that help with this area.

13. As a result of this program:

Question	Strongly Disagree	Disagree	Neither Agree nor Disagree	Agree	Strongly Agree	Total Responses
I have learned to value myself and work ethically with others in a diverse population.	0	0	0	6	7	13

14. Provide any comments you have on what you learned about valuing yourself and working ethically with others in a diverse population.

Text Response

Fieldwork and community experiences were beneficial. This program has brought out my confidence and lead me to trusting myself and others more. When that happened I found myself wanting to work with a broader population.

29. CONCLUSION - Please use this space to share any other feedback, comments, or suggestions about your experience at Western Technical College.

Text Response

I enjoy the smaller campus size along with the smaller class sizes!!
 I enjoyed my time here as a student, wished I would have started my college experience here initially. I would highly recommended this college to any future students.
 Parking around the Health Science Center was difficult due to limited space. It was also noticed that at the Health Science Center many of the staff were not always dressed professionally.
 Thanks for a wonderful education
 The teachers are very dedicated and resources are readily available for students.
