

Practical Nursing Spring 2014 Student SLO Report

1. What did you like about this program?

Text Response

Classroom lectures were very informative, clinical experiences were practical, and skills lab was enjoyed

I like the technical, hands on part of the program. Also, I like that it is a two year program. It is hard and time consuming, however; much is learned throughout each class and all the classes are related to one another.

I like that the instructors are supportive and look out for the students. They all seem to care about your success. They are willing to help as needed. They are willing to go the extra mile. That is nice.

It has given me the necessary skills and knowledge to be a well rounded nurse. The teaching staff that I have been exposed to seem are very helpful.

2. What would you change about this program?

Text Response

Let the NCLEX sort out who should be a nurse, the program is more difficult than it needs to be. Subsequent classroom lectures led to very long days on campus and mental/physical drain; it would be helpful to have multiple classes spread out

Med Cards!

Maybe location and letting students pick where they would like to go. I think it would be nice to have clinical groups stick together as much as possible. I feel you make a connection and it is easier to learn and feel comfortable around the same people. I would also like to have an option of what places are of interest for you to go on clinical. I think it would be beneficial to go to a clinic setting as well.

I wish the theory classes were not so test based.

9. As a result of this program:

Question	Strongly Disagree	Disagree	Neither Agree nor Disagree	Agree	Strongly Agree	Total Responses
I learned critical thinking skills.	0	0	0	3	3	6

10. Provide any comments you have on critical thinking skills you learned.

Text Response

The whole program revolves around critical thinking, and is geared to get your mind working and not just following the motions.

I think these should be talked more about along with lecture and the content. The exams have more then one correct answer most times and I think it would help to talk about priority so you can learn and understand that better.
