

Annual Enrollment Trends

How many FTEs were generated by students taking General Studies Classes during at least one term in a given academic year? What was the headcount for the same group of students?

For the academic years 2011-2015
(Summer 2010 through Spring 2015)

	AY2011	AY2012	AY2013	AY2014	AY2015
Headcount	1106	1048	1114	1004	990

- The value represented in the graph is the number of FTEs generated per academic year.
- Headcount is the number of students taking classes in a given instructional area.
- The number of FTEs includes all enrollments by each student for each instructional area.
- Numbers for 2015 are not official until the WTCS client reporting system closes on September 15, 2015.
- The data source is the WTCS data cube that is built from client reporting data that we submit.
- Academic Year 2011 includes the Summer of 2010, the Fall of 2010 and the Spring of 2011. 2012, 2013, 2014 and 2015 follow the same pattern of terms.
