

# Spring 2017 Wood Tech Faculty SLO Survey

**Q3 - What do you think your students liked best about your program?**

I think the combination of classroom and hands on learning.

**Q4 - What do you think your students would like to see changed in your program?**

Possibly more one on one help from the instructor in lab setting. very difficult to do with a large group.

**Q5 - How many students will graduate from your program this trimester?**

6

**Q7 - How many graduates are able to use effective communication skills?**

6

**Q8 - Provide any comments you have on effective communication skills taught in this program.**

I believe that our program sets the students up for real life hands on learning. Just like going to a job.

**Q9 - How many graduates are able to apply mathematical concepts?**

6

**Q10 - Provide any comments you have on the application of mathematical concepts taught in this program.**

Math for some students can be hard. I believe that we teach the basic principles that are needed for success. 6

**Q11 - How many graduates are able to transfer social and natural science theories into practical applications?**

6

**Q12 - Provide any comments you have on transferring social and natural science theories into practical applications, and how it is taught in this program.**

**Q13 - How many graduates are able to use critical thinking skills?**

all 6 graduates

**Q14 - Provide any comments you have on critical thinking skills taught in this program.**

Carpentry can be a skill that has many challenges. being able to think critically is very much a part of being on a job site. It isn't all black and white.

**Q15 - How many graduates are able to use technology effectively?**

6

**Q16 - Provide any comments you have on how using technology effectively is taught in this program.**

Students are trained with the latest tools that are available.

**Q17 - How many graduates are able to value themselves and work ethically with others in a diverse population?**

6

**Q18 - Provide any comments you have on how valuing one's self and working ethically with others in a diverse population is taught in this program.**

The group as a whole has to put aside any differences and work together as a team.

**Q19 - How many graduates are able to make decisions that incorporate the importance of sustainability?**

6

**Q20 - Provide any comments you have on how incorporating the importance of sustainability in the decisions one makes is taught in this program.**

**Q22 - How many graduates are able to apply a positive work ethic?**

6

**Q23 - Provide any comments you have about teaching this program outcome.**

I remind each and every student that not every day will be great, but having the right mindset will make a world of difference.

**Q24 - How many graduates are able to relate positively to internal and external customers?**

6

**Q25 - Provide any comments you have about teaching this program outcome.**

I try and lead by example with this. the students pick up on this.

**Q26 - How many graduates are able to apply framing techniques?**

6

**Q27 - Provide any comments you have about teaching this program outcome.**

Framing is a skill that over time becomes much easier. The students have already become much more proficient as a result of this course.

**Q28 - How many graduates are able to apply interior and exterior finishing techniques?**

6

**Q29 - Provide any comments you have about teaching this program outcome.**

Same as above.

**Q30 - How many graduates are able to prescribe and demonstrate safe usage of hand and power tools?**

6

**Q31 - Provide any comments you have about teaching this program outcome.**

This is taught very early on.

**Q32 - How many graduates are able to prescribe and demonstrate safe procedures on a job site?**

6

**Q33 - Provide any comments you have about teaching this program outcome.**

Again this is taught in the course.

**Q34 - How many graduates are able to interpret information found on building plans to construct what has been designed?**

6

**Q35 - Provide any comments you have about teaching this program outcome.**

We have 3 blueprint reading courses that teach this.

**Q36 - How many graduates are able to recommend a plan of procedure to eliminate wasted time and materials?**

6

**Q37 - Provide any comments you have about teaching this program outcome.**

**Q38 - How many graduates are able to calculate materials needed to complete a specified job?**

6

**Q39 - Provide any comments you have about teaching this program outcome.**

A course covers this outcome. It provides hands on estimating of a structure.

**Q40 - How many graduates are able to evaluate a finished job for quality of product, organizational skills, appearance and effectiveness?**

6

**Q41 - Provide any comments you have about teaching this program outcome.**

This is a skill that is taught while on the jobsite. The actual house.

**Q43 - Consider this class of graduating students, what was most challenging for the faculty in your program?**

For me, I am a new hire and started in the middle of the term. It was very overwhelming. (in a good way)

**Q44 - Please use this space to share any other feedback, comments, or suggestions about your experience teaching in this program this past trimester.**
