

Student Learning Outcome Assessment

Wood Tech
Spring 2018

Published: 05/18/2018

Q3 - What did you like about this program?

It seems better than most within the scope of my research. I was lucky, as I am in the area by chance more than choice, to be able to attend this schooling.

The topics of study were condensed and changing every couple weeks. This really helped keep my interest throughout.

i liked that it was hands. It also was a more in dept program than i found anywhere else.

I liked the mixture of carpentry and cabinet making in both commercial and residential.

I liked the mixture of carpentry and cabinetmaking.

Clear instructions

I liked the hands-on nature of the program. Being able to do the work that we will be doing one day when we have a job gives me confidence in my ability to work for my employer.

Hands on learning.

Q4 - What would you change about this program?

Make it longer and add a bit more, what, I couldn't tell you. It appeared to me that the instructors were rushing through some things and forced into a crawl in other areas. In all, the Instructors seemed stressed more often than not. Not so much Xxxx, he's a damn rock.

i liked the program the way it was.

Work more with the transit.

Possibly add a surveying class as well as working more with transits.

Q6 - As a result of this program: I have learned effective communication skills.

#	Answer	%	Count
1	Strongly Disagree	0.00%	0
2	Disagree	0.00%	0
3	Neither Agree nor Disagree	12.50%	1
4	Agree	37.50%	3
5	Strongly Agree	50.00%	4
	Total	100%	8

Q7 - Provide any comments you have on effective communication skills you learned.

I'm always learning, no matter my age, but to say that I've learnt a substantial amount here is to be a liar. were I younger, this would have been a far more valuable source of communication skills than most in the private sector.

Q8 - As a result of this program: I am able to apply mathematical concepts.

#	Answer	%	Count
1	Strongly Disagree	0.00%	0
2	Disagree	0.00%	0
3	Neither Agree nor Disagree	0.00%	0
4	Agree	12.50%	1
5	Strongly Agree	87.50%	7
	Total	100%	8

Q9 - Provide any comments you have on mathematical concepts you learned.

I am happy it wasn't a situation where I was drinking from a fire hose. The math we were taught or more aptly, refreshed on, was very specific to our needs and expanded on our understanding of the coursework from other classes. I am happy to have been taught by Xxx, as their work ethic, demeanor and personal knowledge of applied mathematics to our trade were refreshing and appreciated.

Q10 - As a result of this program: I learned how to transfer social and natural science theories into practical applications.

3	Neither Agree nor Disagree	62.50%	5
4	Agree	12.50%	1
5	Strongly Agree	25.00%	2
	Total	100%	8

Q11 - Provide any comments you have on transferring social and natural science theories into practical applications.

Make this class more than just an afterthought. It can be expanded on, or maybe explain to us why it was only on Fridays. Good class. I have a personal interest in all things Science.

doesn't apply to this setting very well

Not sure that social and natural science theories do with this program

2	Disagree	0.00%	0
4	Agree	37.50%	3
	Total	100%	8

Q13 - Provide any comments you have on critical thinking skills you learned.

As I said before I am old enough to have learnt this before. I will say this much, I came here with prior knowledge, and this course showed me how to think differently in reference to carpentry and other things.

Q14 - As a result of this program: I have learned to use technology effectively.

Q41 - CONCLUSION Please use this space to share any other feedback, comments, or suggestions about your experience at Western Technical College.

I was impressed by most personnel at this facility. Maybe do something to reduce the stress of the instructors within a reasonable level. These guys were doing well to maintain bearing and professionalism but this isn't High School Shop. This is real world. It isn't in my purview to know these gentlemen beyond work/ classroom. that being said, I am making a complaint with no offered solution beyond "fix this". To me, it may be a leadership issue, it may be something that can be handled by professional development classes, I have no idea how you guys run your people.
