

Faculty Learning Outcome Assessment

EMT Paramedic

Spring 2018

What do you think your students liked best about your program?

What do you think your students would like to see changed in your program?

This program was very unorganized and was talked about as a joke to the field clinical sights. It seem like the college was working against you at every step and turn. The teachers were hard to get a hold of and responded to emails very slowly. When asked, questions in class went unanswered, due to either lack of teachers understanding and/or evasion of the question. The program rule that were laid out for us in the beginning of the year were broken many times by one particular student, and this student did graduate with us. It makes us ask the question; "How much is he paying Western TC to keep him in this program?". All in all, most employers seem to think twice about hiring you, when you say that you are WTC paramedic program.

How many students will graduate from your program this trimester?

10 out of the original 14 will graduate.

How many graduates are able to use effective communication skills?

Provide any comments you have on effective communication skills taught in this program.

Communication is a learned behavior and the instructors were lacking. Yes they read from the book about closed loop communication, but weren't able to communicate with us about certain concerns.

How many graduates are able to apply mathematical concepts?

10

Provide any comments you have on the application of mathematical concepts taught in this program.

How do we do it? Math is one of those things that most people need to have drilled into their heads on a regular basis. It was requested multiple time to have math worksheets available to us. Nothing of course happened with this.

How many graduates are able to transfer social and natural science theories into practical applications?

10

Provide any comments you have on transferring social and natural science theories into practical applications, and how it is taught in this program.

How many graduates are able to use critical thinking skills?

Provide any comments you have on critical thinking skills taught in this program.

I don't think they really teach it. That is something that is learned in field clinicals.

How many graduates are able to use technology effectively?

10

Provide any comments you have on how using technology effectively is taught in this program.

How many graduates are able to value themselves and work ethically with others in a diverse population?

Provide any comments you have on how valuing one's self and working ethically with others in a diverse population is taught in this program.

How many graduates are able to make decisions that incorporate the importance of sustainability?

Provide any comments you have on how incorporating the importance of sustainability in the decisions one makes is taught in this program.

How many graduates are able to prepare for incident response and EMS operations?

Provide any comments you have about teaching this program outcome.

How many graduates are able to integrate pathophysiological principles and assessment findings to provide appropriate patient care?

Provide any comments you have about teaching this program outcome.

How many graduates are able to demonstrate paramedic skills associated with established standards and procedures for a variety of patient encounters?

Provide any comments you have about teaching this program outcome.

How many graduates are able to communicate effectively with others?

Provide any comments you have about teaching this program outcome.

How many graduates are able to demonstrate professional behavior?

Provide any comments you have about teaching this program outcome.

How many graduates are able to meet state and national competencies listed for paramedic certification(s)?

Provide any comments you have about teaching this program outcome.

Consider this class of graduating students, what was most challenging for the faculty in your program?

Our class was very honest through out the program. These instructors didn't really want to hear it they wanted to hear that everything was going perfectly.

Please use this space to share any other feedback, comments, or suggestions about your experience teaching in this program this past trimester.

Where were they. Deb was good-ish about responding to emails this semester, but wasn't very flexible when it came to meetings with her. I haven't heard anything from Tim since April.
